

KALK V

For soil improvement and liming

Soil improvement and liming fertilizers

Chemical composition
CaO 50÷55 (Calculated in the form CaCO ₃ 95÷99 %)
Ca 36 ÷40
MgO > 1
Fe ₂ O ₃ > 1
K ₂ O > 0.46
Na ₂ O > 0.17
SiO ₂ > 5.3
P ₂ O ₅ > 0.07

Package size 500±5 kg

Granule size 2-5 mm

Manufacturer Ltd. "Mortar Akmene" Statybininkų str. 69, 85305 Venta, Akmene district, Lithuania

Fertilization method and rates:

Recommended average fertilization rates	kg/he
All plants	1000
Maintenance rate of fertilization when fertilized annually	500

It is recommended to fertilize according to soil test data.

Fertilizers are spread before sowing, during tillage. Lime can be applied in autumn as well as in spring.

Rules of storage and use

Store the bags covered to protect from moisture and direct sunlight.

Keep away from heat and flame sources, flammable materials, and chemicals. Ensure easy access.

Keep fertilizers, bags, and covers out of the reach of children and pets.

Application and use

It is the buyer's responsibility to ensure correct and responsible application of the product. Use only when recognized as necessary. Do not exceed the relevant concentration values.

Important:

S2 Keep out of reach of children.

S13 Keep away from food, drink, and animal feed.

S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

S37 Wear suitable gloves.

S39 Use eye (face) protection.

S46 If swallowed, seek medical advice immediately and show this container or label.

Date of manufacture

With proper storage, the shelf life is unlimited.
